# TOMATOES

## 2021

It is difficult to decide which of the 10,000+ tomato varieties to grow. After much deliberation, we have narrowed it to over 120 varieties. Perennial favorites are available to choose from this year over half are HEIRLOOM or open pollinated varieties. Grown ORGANICALLY in our very own Bobby's Long House.

You're guaranteed to find a tomato for your garden.

We love tomatoes here at Good Earth. We eat them, cook with them, read about them, but most of all we are crazy about growing tomatoes. Starting with the best seedsmen and the best Non-GMO seeds. We select from thousands to bring you some of the most unique varieties in existence. We are constantly rejuvenating our collection trying new varieties that are suited to Colorado growing. From seeding to sale, we organically grow all our tomatoes in house, handled with care and fertilized only with organic fertilizer. No neonicotinoids or other pollinator harming chemicals, these babies are all natural. We love talking tomatoes and appreciate any feedback you have on our tomatoes.

Have a bountiful growing season, and may the tomato be with you!

When possible, we indicate growth habit & disease resistance in the descriptions with the following:

**(D)** = Indicates a **Determinate** plant that will reach a certain size and produce a crop which ripens over a brief period.

**(SD)** = Indicates a **Semi-Determinate** plant that will reach a certain size and produce fruit over an extended period.

**(CD)** = Indicates a **Compact-Determinate** plant that will reach a certain size and produce fruit over an extended period. Actual plant size is small than other Determinates.

**(I)** = Indicates an **Indeterminate** plant that will grow and produce fruit over a prolonged period.

**HYBRID-** Crossing two plants through pollination to breed a 3<sup>rd</sup> unique plant. Like two parents and their child.

**HEIRLOOM** = Usually coming from a farm, a family or a geographical region by saving and growing many subsequent generations, for at least 50 years.

**HEIRLOOMS** are varieties whose seed can be saved to produce the same tomato next growing season.

**OP = Open Pollinated** plants are pollinated by natural mechanisms like birds, bugs, wind and people for example. All **HEIRLOOMS** are Open Pollinated, but not all Open Pollinated plants are **HEIRLOOM**.

◇ We would like to thank Gary Ibsen of Tomato Fest, for allowing us to use his pictures and descriptions in this book!

# RED & PINK-RED TOMATOES

**ABE LINCOLN-** Honestly this one is a must try for a large meaty *HEIRLOOM* lover. Deep color, delicious flavor in clusters of 8-16 oz. fruits. Abe has been around for at least 96 years, and has been a strong disease resistant, slicer-dicer favorite since the beginning. **(I) 80 days**

**BEEFSTEAK-** Considered the original *HEIRLOOM* beefsteak. Lush, thick plants with excellent productivity. Yields many 4-5" slightly ribbed, bright red tomatoes that have spectacularly delicious, sweet flavors. Excellent taste, meaty flesh, and size (up to 2 lbs.) make it prized for sandwiches, but it is also great for cooking, salads and canning. **(I) 80-85 days**

**BELII NALIV-** This very early *HEIRLOOM* produces an abundance of beautifully round, red 2" fruit that is sweet and tangy. Short 42" tall plants are great for medium-sized containers and patio gardens. Plants are semi-determinate and will produce loads of fruit over a short period of time, making them great for sauces. Great for higher altitude and cooler night areas. **(SD) 55 days** ♦

**BIG BEEF HYBRID - (Beefsteak)** What flavor! It has rugged vines which overcome adverse growing conditions. A rich old-time flavor, it features bred-in **HYBRID** qualities such as impressive yields of extra-large (9-16 oz.) smooth, red, globe-shaped fruit with superior disease resistance. **(I) 73 days**

# RED & PINK-RED TOMATOES

## (CONT'D)

**BLOODY BUTCHER** - A sensational and very popular, early producing tomato variety. A good choice for an early tomato while you wait for later varieties to harvest. Vigorous, potato-leaf plants yield copious amounts of 2" (4 oz.) fruits that are deep-red color inside and out. Five to nine fruits per cluster with a rich heirloom tomato flavor. Plant produces well until frost. A good variety for cooler growing regions since fruits ripen quickly. Great for canning.

**(I) 55 days OP** ♦

**BRANDYWINE, RED (Beefsteak)**- This is the original red Brandywine *HEIRLOOM* introduced by Johnson and Stokes Seed Co. in 1889, and named after Brandywine Creek in Chester County, Pennsylvania. Large vines produce yields of medium-sized (8-12 oz.), round, smooth, deep red fruit that are juicy and loaded with intense tomato flavor. **(I) 78 days** ♦

**BRANDYWINE SUDDATH (Pink beefsteak)** - This Amish *HEIRLOOM* has been around for over 135 years and is considered by many to be the best tasting tomato ever. Prolific plants produce large (1-2 lb.) fruit with succulent, exceptionally rich flavors. **(I) 85 days** ♦

**BUSH BEEFSTEAK** - Compact, bushy, vigorous plants that produce an abundance of perfect sandwich size, rich red, solid fruit. Great for containers. **(D) 62 days** ♦

# RED & PINK-RED TOMATOES

## (CONT'D)

**BUSH CHAMPION** - One of the best varieties for small space gardens and containers. These compact plants grow only 24" tall, but yield plenty of big, red, meaty tomatoes that weigh 8-12 oz. Their flavor is excellent. Good disease resistance and thrives in nearly every climate. **(D) 70 days**

**BUSH EARLY GIRL** - "Little sister" to Early Girl, this compact variety will surprise you with its huge yields of 6-7 oz. fruit that is larger than its sisters. Lovely for containers. **(CD) 54 days**

**BUSH GOLIATH** - Developed for patio gardens, containers, and those with limited garden space. Compact 3 ft. plants produce huge, red, 3-4" fruits packed with flavorful meat and high sugar content. **(D) 68 days**

**CARMELLO** - This much sought after and hard to find French tomato is among the best. Large crops of heavy, juicy, fruit with flavor that just does not stop. Consistently produces great tasting tomatoes even when the nights turn cool. Good for salads, sautéed, or as an integral part of any dish. **(I) 75 days OP ♦**

# RED & PINK-RED TOMATOES

## (CONT'D)

**CASPIAN PINK (Beefsteak)** - This *HEIRLOOM* originates from southern Russia between the Caspian and Black Seas. Thought by some to be the “Queen of the Pinks”, this prolific plant produces 1-1½ lb. globe-shaped, pink-red tomatoes with fruit that rival Brandywine in flavor and popularity. One of the best tasting Russians, it is also perfect for cooler nights. **(I) 80 days** ◇

**CELEBRITY** - This *AAS Award Winner* established a new standard for main-crop hybrids with multiple disease resistance. Medium-sized, globe fruits are crack resistant and come in at about 7oz. **(SD) 70 days**

**CHAMPION II** - Features even more disease resistance than the original. High yields of red meaty fruit with just the right sweetness. Makes a delicious sandwich tomato!  
**(I) 65 days**

**NEW CHARGER** - Features strong resistance to the Tomato Yellow Leaf Curl Virus, as well as others. A high yielding salad variety. Brilliant red, 8 to 10 ounce fruits are very firm and smooth shouldered with excellent flavor - high sugar and low acid. In trials, it proved widely adaptable in all areas of the United States. Crack resistant. **(D) 76 days.**

# RED & PINK-RED TOMATOES

## (CONT'D)

**COSMONAUT VOLKOV** - An out of this world *HEIRLOOM* tomato from the Ukraine! It is a favorite of Good Earth across the board. It set our taste buds flying high with its rich, deep, balanced sweet and tangy flavor. Plants produce 2-3-inch fruit that's deep orange/red with green tinged shoulders. **(I) 72 Days OP** ◇

**COSTOLUTO GENOVESE** - An Italian, heat-loving, *HEIRLOOM* tomato that has been enjoyed for many generations along the Mediterranean. Large, deep-red fruits have a singularly fluted profile, are deeply ridged, and heavily lobed. Meaty, full-flavored, slightly tart, and delicious. Because of its scalloped edges, it has also been known as the 'Ugly Tomato' but is perfect for use in an arrangement of different colored slices of tomatoes. Makes a rich and pungent pasta sauce. **(I) 78 days** ◇

**NEW** **DEBUT** - Compact enough for patio containers or small gardens, big 8 to 10-oz. fruits, flavor that is unbeatable for fresh eating, enormous yields, great disease resistance -what more can you want? Dark red fruits with smooth shoulders and a small blossom-end scar. **(D) 70 days**

**DELICIOUS (Beefsteak)**- An excellent *HEIRLOOM* slicer, with most fruits over 1 pound some 2-3 lbs. Above average yields of globe to ribbed-shaped beefsteaks that are smooth, solid, and seldom crack. **(I) 77+ days**

# RED & PINK-RED TOMATOES

## (CONT'D)

**DONA-** Another sought after but hard to find French *HEIRLOOM* variety. This one was bred for European specialty markets, where flavor and quality standards are uncompromising. Slightly flattened, almost seedless with a sweet/acid balance that few modern tomatoes can match. Highly productive plants yield deep red 6 oz. juicy fruits that are smooth, meaty and have good disease resistance.

**(I) 75 days** ♦

**EARLY GIRL-** Ever popular and dependable, one of the earliest tomatoes with meaty, red, tasty fruits. Hardy vines produce heavy yields. Disease resistant and uniformly round fruit. **(I) 55 days**

**NEW** **FIREWORKS - HEIRLOOM** Exploding with a sweet, but well-balanced flavor and one of the largest, super-early, slicing varieties we offer. Plants produce high yields of 8-to-12-ounce, bright red, slightly flattened, 2 to 3" meaty fruits. Excellent for salads and sandwiches.

**(I) 60 Days OP**

**FOURTH OF JULY** aka Independence Day - One of our earliest varieties, with the deep red tasty fruit ripening in early summer, hence the name. Big enough for slicing, they are extra juicy yet firm, and bear in clusters of 6 to 8. **(I) 49 days**

# RED & PINK-RED TOMATOES

## (CONT'D)

**GLASNOST** - Russian for “publicity” an **open-pollinated** variety from Siberia producing 3" smooth, red-orange, dense, meaty fruit with excellent flavor. Slightly oblong fruit that are perfect for slicing. **(I) 71 days OP** ◇

**NEW HEINZ** - Excellent for fresh market as well as ketchup, purees, and sauces, as its name suggests! Fruits resist cracking and plants feature good foliage cover. Smooth, round, 4 to 6 oz. globes. Good disease resistance and very meaty. **(D) 75-77 Days OP**

**HOMESLICE** - Looking for a compact, delicious slicer? This tomato only gets 18-24" tall and is perfect for containers. This early tomato produces 6-8 oz. red fruit. **(D) 63 days**

**ISPOLIN (Beefsteak)** - This rare Siberian **HEIRLOOM** is one of the biggest Russians available. Plants can reach 8' if not pruned and produce lots of 1-2 lb. dark pink-red tomatoes up to 4" across with superb, earthy, tomatoey flavors. Good for cool climates and a delicious sandwich or salad tomato. **(I) 72 days OP** ◇

# RED & PINK-RED TOMATOES

## (CONT'D)

**JET STAR**- This variety is perfect for those who want a low acid, meaty tomato, and lots of them. Compact plants will not take over the garden and ripening tomatoes are less likely to crack than many others. With moderate disease resistance, Jet Star is a reliable mid-season producer that will keep going until frost. **(I) 72 days**

**LISA KING (Beefsteak)** - The return of the Lisa King *HEIRLOOM* tomato thought to be lost to time, returns! Immensely deep pink beefsteak with real old-fashioned tomato flavor. Large 6' plants produce mid-season with lots of blemish free fruit that is perfect for slicing. **(D) 80 days**

**MATINA** - German *HEIRLOOM* that produces early and often and will keep producing through a long season. Hearty beefsteak flavor packed into these scrumptious 2 to 4 oz. fruit, that grow in big clusters. Large potato-leaved plants ideal for gardens and raised beds especially in short season locations. **(I) 58 days** ♦

**MOMOTARO** aka Tough Boy - This is the most popular tomato in Japan. Plants produce abundant crops of round, red, medium sized 6-8 oz., and perfectly smooth fruit. Their taste is wonderful and intensely rich, with just the right amount of acid. **(I) 74 days**

# RED & PINK-RED TOMATOES

## (CONT'D)

**NEW** **MUSHROOM BASKET** - A short determinant variety that produces deeply ribbed, large and picturesque fruit in thick clusters. The flavor is sweet and mild.  
**(D) 75 days OP**

**PATIO**- Can also be grown on decks, in courtyards or anywhere space is limited. Attractive, deep green foliage and bright red, 3-4 oz. flavorful tomatoes make these 2 ft. tall plants perfect for containers. **(D) 70 days**

**PONDEROSA PINK** - aka Henderson's Ponderosa (Beefsteak) - **HEIRLOOM** introduced in 1891 by Peter Henderson. A returning personal favorite and a go-to big slicer. This beefsteak produces 1-2 lb. smooth fruits with few seeds, lots of tomato meat with rich complex flavors. Late producer, but totally worth the wait. **(I) 86 days OP** ♦

**SASHA'S ALTAI**- A superb Russian **HEIRLOOM**. Hearty plant which produces very good yields of 4-6 oz. thin-skinned, bright red, slightly flattened, round tomatoes with an award-winning complex flavor. Fruit sets well in cooler climates and high altitudes. Seeds are extremely rare and hard to find. Good for containers and small gardens. **(I) 57 days** ♦

# RED & PINK-RED TOMATOES

(CONT'D)

**SIBERIAN**- an *HEIRLOOM* smuggled out of Russia in the 1970s, this could be the earliest of them all. In addition to earliness, it is capable of setting fruit at 38 degrees. Abundant clusters of up to 4 oz., bright red, round fruit. Desirable choice for higher elevations, or just to be picking tomatoes in June. Good in containers or for small gardens.

**(D) 48 + days**

**SIoux** - Classic American *HEIRLOOM* released in 1944 by the University of Nebraska, quickly it became a staple throughout the Midwest as it consistently outperformed other heavy yielders. 2 ½" round, red fruit exploding with flavor and a nip of tartness. Produces copiously even in warm dry regions. **(I) 78 days** ♦

**NEW** **STELLAR** - Produces high yields of round, red, 5 to 7 oz. delicious, slicing tomatoes, perfect for all uses. Stands tough against Late Blight in areas with high disease pressure. Intermediate resistances to Early Blight and Septoria Leaf Spot. Ideal for small-space gardens and large containers.

**(D) 70-75 Days**

**STUPICE** (say "stoo-PEECH-ka") This Czechoslovakian *HEIRLOOM* is cold tolerant and very early, like Siberian. It bears an abundance of very sweet, flavorful 2-3" deep red fruit. Siberian may have the bragging rights for the earliest cold tolerant tomato, but this one is far superior in taste. Great container or small garden choice. **(D) 52 days**

# RED & PINK-RED TOMATOES

## (CONT'D)

**SUPER FANTASTIC** – Scarlet 3-5” medium globe shaped fruit, surprising beefsteak flavor in a smaller package. Hearty yields, extremely crack resistant, good for canning. **(I)** 65 days

**NEW** **SWEET CHARLOTTE** - Perfect for a sandwich, in salads, or just sliced. Large determinate plants have enough vigor to offer high yield potential, and attractive 8-to-10-ounce fruit, with wonderful flavor. Widely adapted and works well for market gardeners and home gardeners alike. **(D)** 72 days

**THESSALONIKI** – The pride of Greece this tomato is a top performer. Uniform baseball size tomatoes, blemish free and seem to outlast all others if left a little longer on the vine even after turning red. Flavor is mild, and its consistency and early producing make it a favorite. **(I)** 69 days

**ULTIMATE OPENER**- Frequently, early tomatoes are under-sized and have marginal flavor. This red tomato, developed by the same breeder of Early Girl and Better Boy, produces fruits about 33% larger than Early Girl with marvelous flavor that is sweet and juicy. **(I)** 55 days

# TOMATOES OF A DIFFERENT COLOR

## BLACKS \* \* BLUES \* \* PURPLE

When we first started specializing in providing unique varieties to Southern Colorado gardeners, I thought, “Who would eat a brown or purple tomato?” then I tried one. Now, if I were only going to grow 4 plants, 2 of them would be from this group. Their flavors are rich and complex, and their colors are Instagram worthy.

### **ANANAS NOIRE** (aka BLACK PINEAPPLE)

**(Beefsteak)**- This Belgian *HEIRLOOM*'s French name means black pineapple. Its 1-1 ½ lb. fruit is equivalent in size to Pineapple (see bi-color) with a totally different color. The exterior is dark purple with a distinctive streaked interior that resembles a tie-dye pattern of pink, red, green and yellow. It delivers a complex, hearty tomato taste that's both sweet and rich, with a wallop of acidity. Great for sauce. **(I)** 80-85 days ◇

**BLACK BEAUTY** -Truly a wild and magnificent variety, the darkest tomato we know of. Rich earthy flavors. Fruit size can vary a little bit. Beauty is high in the antioxidant anthocyanin (blueberries and blackberries) making it beautiful and nutritious. **(I)** 80 days approx.

**BLACK FROM TULA (Beefsteak)** - This Russian *HEIRLOOM* is one of the largest black varieties with 3-4” slightly flattened (good for slicing) fruit, which weighs up to ¾ lb. Dark mahogany brown-red with green shoulders, the fruit is round and smooth, not ribbed like many beefsteaks. Delicious smokey fruit flavors. This one is sure to please. **(I)** 75-80 days

# BLACKS \*\* BLUES \*\* PURPLE

## (CONT'D)

**BLACK KRIM (Beefsteak)** - This rare *HEIRLOOM* is originally from the former Soviet Union. It produces outstanding yields of 3-4", 10-12 oz., slightly flattened, mahogany (slightly maroon) fruit with deep green shoulders. Fantastic intense flavor. Suitable for containers and patio gardens. Perfect choice for slicing, salads, and cooking. **(I) 75 days**

**BLACK PRINCE**- This *HEIRLOOM* is one of the most sought-after and hard-to-find black tomatoes. Originally from Irkutsk, in the Siberian region of Russia. Deep garnet-colored skin on round 2" (2-3 oz.) tomatoes are full of juice and have incredibly rich fruity flavor. Perfect for small gardens, containers and cool night areas. Eaten fresh, in sauces and other culinary delights, this one promises to satisfy. **(I) 70-80 days** ♦

**BLACK ZEBRA**- An *HEIRLOOM* that produces vigorous, indeterminate tomato plants that produce 4 oz., 1 1/2", juicy, round tomatoes. It has purple/mahogany-colored skin with green stripes and exceptionally rich tomato flavors. Its flavor also carries the rich complexity associated with the best of black tomatoes. This is one of our favorites for looks and taste. **(I) 85 days**

**NEW BRAD'S BLACK HEART** - One of the only Black Heart varieties in existence. Extra dense, meaty flesh, classic richness of dark tomatoes. Wispy, droopy foliage. Yields copious amount of 12 oz. pink-black, heart shaped fruits. Rich sweet complex flavors. A good producer in cooler growing regions. **(I) 75 days OP** ♦

# BLACKS\*\*BLUES\*\*PURPLE

## (CONT'D)

**BLUE BEAUTY** - A cross between Beauty King and a blue tomato. Medium to large 4-8 oz fruit good and meaty tomatoes good for slicing and solid production. **(I)80 days**

**CARBON-** This *HEIRLOOM* is a beautiful deep purple/brown on the outside with a deep brick-red interior. It won a taste test of heirlooms at the Cornell Research Farm. Yields prolific amounts of medium to large 8-14 oz. fruit with exceptionally rich, complex flavors. **(I) 76 days** ◇

**CHEROKEE PURPLE (Beefsteak)** - An *HEIRLOOM* which originates from the Native American Cherokee tribe in Tennessee. Productive plants producing loads of thin-skinned, dusky rose to purple colored, 8-12oz. fruits with deep brick-red interior flesh and dark shoulders. Rich, complex, flavors make it one of the best tasting heirlooms. **(I) 80 days** ◇

**GOOSECREEK BLACK-** - This *HEIRLOOM* was first offered to us in 2012, after hearing about it from Jimmy Williams, who wrote the book *From Seed To Skillet*. Without a doubt it is one of the best (and hard to find) black tomatoes. This mid-season tomato bears bountiful tennis ball size fruit with a hint of smokiness. The flesh is juicy and meaty yet firm with a delightful creamy texture. **(I) 70-80 days** ◇

# BLACKS\*\*BLUES\*\*PURPLE (CONT'D)

**JAPANESE BLACK TRIFELE-** This highly prized *HEIRLOOM* from Russia is a short potato-leaved plant that yields prolific quantities of 6 oz. fruit. It resembles a beautiful mahogany-colored Bartlett pear with green shoulders. One of the blackest varieties available, it is a work of art sliced out on a plate. It is a real palate-pleaser with its extraordinary rich and complex flavors. **(I) 81 days**

**NYAGOUS-** A prolific rare Russian *HEIRLOOM*. The first year we offered these black-purple tomatoes was in 2008 and they performed and looked beautiful in our own garden. Smooth, round, blemish-free on the outside, these 6-8 oz. fruits are firm with excellent texture, sweet complex flavors and have a clean acidic finish. **(I) 75-80 days**

**PAUL ROBESON (Beefsteak) -** This famous Russian *HEIRLOOM* was named after the operatic artist who won acclaim as an advocate of equal rights for Blacks and was especially admired in the Soviet Union. Originally from Siberia, it sets fruit at cooler temperatures and grows to 4" wide. Slightly flattened and round, its dusky, dark red color with dark green shoulders and red flesh sets it apart from others. **(I) 74 days** ♦

**NEW** **PURPLE BOY - HEIRLOOMS** are loved for their great taste and unique appearance, and this hybrid delivers on both! Fruits are 6 to 7 ounces, have a sweet/acid balance flavor, nice texture, and beautiful color. Provides home gardeners and farm markets growers with strong disease resistant plants and good yields. **(SD) 70 days**

# TOMATOES OF A DIFFERENT COLOR

**BI-COLOR\*\* GOLD\*\* GREEN\*\***

**ORANGE\*\* YELLOW**

**AUNT RUBY'S GERMAN GREEN (Beefsteak) -** Green *HEIRLOOM* beefsteak from Ruby Arnold of Greenville, Tennessee. Green with a hint of yellow, this slightly flattened 1lb. fruit is sweet, with a bit of spicy tang and acidity. Popular choice for a large, short season green.

**(I) 70 days** ◇

**AZOYCHKA (Beefsteak) -** This Russian *HEIRLOOM* is a favorite of Jimmy Williams, author of *From Seed to Skillet*. This delightful, small (8 oz.) for a beefsteak tomato matures so early that it will be one of the first to ripen in your garden. The lemon-yellow fruit is very flavorful, rich but sweet, with a delicious hint of citrus, and good acidic balance. Good choice for high altitudes and cooler nights. **(I) 70 days** ◇

**COSMIC ECLIPSE -** Smaller 2-3 oz. fruit, but don't let that fool you, this tomato is packed with flavor that eclipses others of its size. Maybe the most beautiful combination of colors in any tomato, that change as it ripens. Settling to a deep red with green stripes and patches of vibrant black (anthocyanin). **(I) 70 days** ◇

**DARK GALAXY -** This is a beautiful tomato and has great down to earth balanced flavor of acid and sweet. Plants have blue hues on stems as well. Mottling of skin is normal.

**(I) 76 days**

# BI-COLOR \*\* GOLD \*\* GREEN \*\* ORANGE \*\* YELLOW (CONT'D)

**DWARF FRED'S TIE-DYE** - Regular rugose leafed plants produce medium sized ½ lb. fruit. Deep purples with reds; green and yellow striped; or all of the above. Beautiful and delicious, similar to Pink Berkley Tie-Dye, but better suited for containers. **(I) 75 days** ♦

**DWARF ULURU OCHRE** - First of its name, and first of its color, and conqueror of the sweet master of tart. Plant produces an orange/black 12 oz. One of the most unusual tomato color variations we've seen. Always brilliant and unique. **(I) 65 days**

**NEW** **GREEN BERKELEY TIE DYE** - Vivid shades of red, green, and amber come together in a kaleidoscope pattern on this amazing tomato. Red and green stripes color the outside while the interior is chartreuse marbled throughout with ruby red. Beautiful 8 to 12 oz. tomatoes have a tangy delicious flavor and grow on vigorous, productive plants well suited to most climates. Bred by Brad Gates of Wild Boar Farms. **(I) (OP) 70 days.**

**GREEN ZEBRA** - This *HEIRLOOM* produces 2" round fruit and ripens to a yellow-gold with dark-green zebra-like stripes. The flesh is lime-emerald in color. A great green tomato for brightening up salads and other tomato dishes. **(I) 75 days**

# BI-COLOR\*\* GOLD\*\* GREEN\*\* ORANGE\*\*YELLOW (CONT'D)

**JAUNE FLAMME** - Extremely prolific, gourmet French *HEIRLOOM* that bears in clusters of 6. Beautiful 1½” round tomatoes are persimmon-orange inside and out. Delicious full-bodied flavors that literally burst in your mouth. Good in salads, but also makes a great flavored sauce. **(I) 70 days**

**LUCID GEM - (Beefsteak) HEIRLOOM** winner of the sweetest tomato award at the 2017 National Heirloom Expo. A beefsteak slicing-type with stunning fruit, that ripens from yellow to orange. Marbled with dark and red splashes, with a superb fruity flavor. Heat tolerant and long lasting on or off the vine. **(I) 80 days**

**MINT JULEP** aka Michael Pollan -a lime green, pear-shape with yellow striped skin. It has a sweet and fruity flavor with a hint of tartness. This striking tomato bears 1-2 oz. fruit which has produced as much as 5 gallons from one plant. It was named after Michael Pollan who is an author, journalist and activist. **(I) 80 days**

**NEW** **ORANGE OXHEART** - Big 10 to 12 oz., heart shaped, meaty fruit are sweet and juicy. Well balanced flavors and attractive color make this a perfect addition in salads, or as a delicious juicy slice on a sandwich. Vigorous indeterminate vines benefit from growing in cages. Called one of the best tasting among the Oxheart types. **(I) 76 days. OP**

# BI-COLOR\*\* GOLD\*\* GREEN\*\* ORANGE\*\*YELLOW (CONT'D)

**NEW** **ORANGE PEACH - HEIRLOOM** This is a true garden oddity; the fruit is perfectly peachy in color, with even a lightly fuzzy skin to match! The original peach tomato is an old French variety called Yellow Peach. It was used to make a marmalade that was a convincing substitute for the real thing. Its fantastic flavor and gorgeous looks make it a favorite. **(I) 75 days OP**

**PEPPERMINT** - Red/pink striped with yellow streaks that can become more prominent as it ripens. This sweet flavored bi-color tomato is a solid, meaty choice. Known for being low in acidity. **(I) 80 days** ◇

**PINEAPPLE (Beefsteak)-** This 2 lb. **HEIRLOOM** bi-color, slightly flattened tomato has red blushing and streaks on its primarily yellow-orange outside and this incredible red starburst on the inside with few seeds. Taste is rich with fruity, sweet flavors and lots of juice. **(I) 85 days** ◇

**PINK BERKELEY TIE-DYE** - Every bite of this psychedelic-colored beefsteak-type tomato is an experience! This big and beefy tomato can reach 8-12 oz. with a rare blend of sweet, spice and acidic flavor. The green skin with yellow streaks leads to the bright interior flesh of trails of red, green, and yellow. It's colorful to say the least. The relatively compact plants produce early for such a large tomato.

# BI-COLOR\*\* GOLD\*\* GREEN\*\* ORANGE\*\* YELLOW (CONT'D)

**PORK CHOP** – This tomato variety is also from *WILD BOAR SERIES* by Brad Gates. It has large 10 oz. fruits that are true lemon-yellow. A flat shouldered tomato that matures from yellow with green stripes to bright gold. We found it to be sweet in flavor with a hint of citrus.

**(I) 80 days**

**SOLAR FLARE (Beefsteak)**- Striking red fruits are 6 - 10oz with gold stripes. Luscious and meaty with a slightly sweet and full tomato flavor. **(I) 75 days**

**STRIPES OF YORE** - An uncommon small/medium slicing variety. Flavor is mild for a dark tomato. Foliage can be sparse but contributes to striping and helps it produce well. Color is mostly yellow with blue dark toned striping.

**(I) 75 days OP**

**THORNBURN'S TERRA COTTA**- This *HEIRLOOM* has been around for a while, since 1893 when James Thornburn of New York first introduced it. A beautifully colored tomato that will hold its color and make an artistic sauce of bronzy hue. Earthy and full of flavor. Produces well into midseason. Perfect for slicing. **(I) 75-80 days**

# BI-COLOR\*\* GOLD\*\* GREEN\*\* ORANGE\*\* YELLOW (CONT'D)

**VIRGINIA SWEETS (Beefsteak)** - This *HEIRLOOM* variety is simply one of the best tasting, best producing gold-red bi-colors ever grown. On top of that, the tomatoes are beautiful and enormous, weighing at least 1 lb. each. Golden yellow tomatoes are colored with red stripes that turn into a ruby blush on top of the golden fruit. Flavor is sweet and rich. **(I) 80 days**

**WAGNER BLUE GREEN** - This tomato has lovely, round, blue and green skin, with green interiors in the medium 4-6 oz. fruits. Developed by renowned Heirloom/Open Pollinated tomato breeder Tom Wagner. No other color combo will impress like this tomato. Along with its colorful appearance, the taste is great. **(I) 75 days**

**NEW** **WAPSIPINICON PEACH** - This strain came from Dennis Schlicht and is named after the Wapsipinicon River in northeast Iowa. Heavy producer of 2" round fuzzy yellow fruits. Sweet, juicy, well-balanced flavor. **(I) 80 days**

# CHERRIES \*\* GRAPES

Not all cherries are sweet, some are sassy, please read descriptions

**AUSTIN'S RED PEAR** - Large 2 oz "lightbulb" shaped red tomato, usually a little beefier than it's yellow cousin. Large bushy plants can get 6' or taller. Excellent flavor for snacking off the vine or great in salads.

**(I) 78 days** ◇

**BLACK CHERRY** - This variety is the only "truly" black cherry. Vigorous, tall plants produce heavy yields with huge clusters. Fruits are 1" round, deep purple-mahogany and have that irresistible delicious, sweet, complex, full tomato flavor we've come to appreciate in black tomatoes. This unique variety is beautiful to mix with other colored cherries in a salad. **(I) 64 days OP**

**BLACK VERNISSAGE** - Large plump cherry tomato, excellent producer from beginning to end of season. Fresh eating if picked early seems to be best. Otherwise, people love these roasted or in sauces like a lot of black tomatoes they are full of complex flavors.

**(I) 75 days**

**CHERRY FALLS**- Tidy habit and good early establishment makes this a good choice for adding to your mixed flowering containers or large baskets. Very vigorous, heavy 1½ to 2 oz. juicy, bright red fruits crop heavily over a long harvest period. Plants cascade 36 - 40" or can be vined or caged and reach 6' in height. This is one of the four varieties you will find in our tomato **HANGING BASKETS**. **(I) 60 days**

# CHERRIES \*\* GRAPES

(CONT'D)

**CHOCOLATE CHERRY**- Extremely flavorful, uniform round fruits in trusses of 8, each measuring 1” in diameter. These mahogany brown, bite-size morsels can be picked several days before completely mature and allowed to ripen off the vine without sacrificing quality.

**(I) 70 days OP**

**NEW CHOCOLATE PEAR** - Gorgeous pear-shaped cherries are light red swirled with shades of green and brown, great for farmers markets and home gardeners. Fruits have a rich tomato flavor and make a beautiful presentation mixed with red, yellow, and orange tomatoes. A consistent taste-test winner in trials. **(I) 70 days OP**

**NEW CHOCOLATE SPRINKLES** - With a name like a confection and striped dark-chocolate grape-shaped tomatoes, this one is too tempting to pass up. The fruit is delightfully sweet, perfect for snacking or adding on top of salads. Tall, disease-resistant plants bear huge crops of these delectable, crack-resistant cherry tomatoes. **(I) 75 days.**

**CLACKAMAS BLUEBERRY** - Thank you Tom Wagner for this amazing new variety, the richness of anthocyanins gives this tomato its blue color. The plant also has a purple hue to the stem and produces abundant clusters of blue fruit larger than most cherries. **(I) 70-75 days**

# CHERRIES \*\* GRAPES

## (CONT'D)

**ELFIN**- This variety of grape tomato has the same wonderful, sweet flavor, size and shape of the original Grape tomato but has the advantage of a smaller plant. Clusters of delicious, crisp, uniquely flavored tomatoes have a sweetness that is unmistakably “grape”. Good for containers.

**(D)** 55 days ◇

**NEW** **EVIL OLIVE** - This is a productive variety with an amazing shelf life. This gorgeous and unusual tomato ripens slowly. With extremely crunchy 2-3 ounce fruit, this tomato is perfect for Salsa Verde. **(I)** 75 days

**FANTASTICO** - 2014 *AAS Winner*. Coming in at only 15” tall this tomato delivers an insane amount of small grape tomatoes. Suited perfectly for small containers and baskets.

**(D)** 60 days

**GREEN DOCTORS** - Small  $\frac{3}{4}$ ” fruit on long trusses jam packed with tomatoes. It has a beautiful color and is sweet with a just a hint of tartness. **(I)** 75 days

# CHERRIES \*\* GRAPES

## (CONT'D)

**ISIS CANDY-** Plants produce 1” round, delightful, yellow-gold cherry tomatoes with red marbling that varies from just a blush to extensive streaking and a spectacular cat’s eye starburst on the blossom end. Very productive plants bear throughout the season. The delicious fruit is a blend of rich, sweet, fruity flavors. It is a favorite “garden candy” treat with kids.

**(I) 70 days OP** ♦

**JOLLY** – For a small tomato this one really packs that traditional tomato flavor punch. These 1+ oz round fruits have a pointed blossom end. Very disease resistant and an *AAS winner*. **(I) 73 days**

**MEXICO MIDGET** – 2014 Seed Saver Exchange winner for taste, an old-time favorite for its sweetness and massive production. Trusses of 20-30 ½ inch tomatoes cluster all over the plant from early in the season until frost. You will have hundreds of these to eat during the season.

**(I) 60-70 days OP**

**PINK BUMBLE BEE** - Pink fruits are striped with yellow and are crack resistant. The Bumble Bee series of cherry tomatoes is sure to create excitement with its extraordinary beauty and superb flavor. Great for fresh tomato, basil, mozzarella and balsamic vinegar salads. Vigorous vines produce continuously over the growing season. **(I) 70 days**

# CHERRIES \*\* GRAPES

## (CONT'D)

**PINK PING PONG** - This *HEIRLOOM* wasn't named for its taste, but rather for its size. Vines bear prolifically with amazing yields of sweet, pink fruit which is juicy and bursting with superb flavors. Great for salads or canning, if they ever make it into the house. **(I) 75 days** ◇

**PINK TIGER** (Grape) - This is a unique and very adaptable plant. Does well in the ground, containers, or a greenhouse. It still grows and fruits even if temperatures are cool. **(I) 70 days**

**RED TUMBLING TOM** - This beauty is ideal for hanging baskets and containers. True to its name, this solid branching tomato tumbles to 20" or more with sweet and juicy 1-2" fruits. This is one of the varieties you will find exclusively in our tomato **HANGING BASKETS**. **(I) 70 days**

**SUN GOLD**- These positively luscious, thin-skinned, juicy, bite-sized beauties overflow with an abundance of oh-so-sweet, fresh-from-the-vine flavor. The only reason they make it to your kitchen is because they produce abundant yields from cascading trusses, which are smothered in fruit and bear continuously over the summer. One of the earliest-producing cherries. **(I) 57 days**

# CHERRIES \* \* GRAPES

(CONT'D)

**SUN SUGAR-** Our bestselling cherry! Descended from Sun Gold, this golden-yellow cherry tomato is even sweeter, with superb texture and a tangy sweet, tropical flavor. Resists cracking. The taste of these tomatoes is so intoxicating they're often eaten by the gardener and rarely make it to the table.

**(I) 62 days**

**SUNRISE BUMBLE BEE-** A stunning cherry with vibrant red, deep yellow and orange stripes on the outside and pink marbling on the inside. Beautiful inside and out. Complex flavor that is deliciously sweet while slightly acidic. **(I) 70 Days**

**SUPERSWEET 100-** This is a home-gardener favorite as the skins are too thin for mechanized agriculture. It has more disease resistance than Sweet 100 while keeping the same fabulous taste. Small  $\frac{3}{4}$ "-1" round, bright red tomatoes are deliciously sweet with a high vitamin C content. Long clusters of fruit, up to 100, load up on tall, vigorous plants and continue to bear until frost. **(I) 65 days**

**SWEET BABY GIRL -** Incredible harvest of luscious, red, super sweet, grape-sized fruit in long clusters on compact plants. Unlimited production potential of an "indeterminate" with the controlled growth of a "determinant". First "full size" cherry type plant that is easily grown in a container or small garden spaces. **(CD) 65 days**

# CHERRIES \*\* GRAPES

## (CONT'D)

**NEW** **SWEET N NEAT YELLOW** - An ultra-compact, dwarf variety that is bred to thrive on windowsills, decks and in patio containers. Strongly branched plants produce masses of sweet fruits over a long season for continuous harvests. Petite, 1-inch rounded fruits weigh less than an ounce, with a memorable flavor that sparkles with sweetness. Vines will reach 12 to 14 inches if staked. Good for **HANGING BASKETS**  
**(D) 60 days. OP**

**NEW** **THAI PINK EGG** - Plants produce heavy yields of small, pale pink to red egg-shaped fruit that grow to around 1 ½" long. Fruit has excellent sweet flavor and are best eaten fresh; ideal for salads. Very popular market variety in Thailand.  
**(D) 70 days** ◇

**NEW** **WHITE CHERRY - HEIRLOOM** Early and productive pale yellow to ivory 1 ounce fruits; color will be paler with less sun exposure. An excellent color addition to cherry tomato mixes. Sweet fruity flavor. **(I) (OP) 70 days**

**YELLOW TUMBLING TOM** - Looking for a complimentary pair? Look no farther than the Tumbling Toms. The yellow is a match to its red cousin. Ornamental and tasty, they grow 20" long in baskets and containers with 1-2" fruit. Looks lovely next to the Red Tumbling Tom. This is one of the varieties you will find exclusively in our tomato **HANGING BASKETS. (I) 70 days**

**YELLOW PEAR, BEAM'S VARIETY** - A selected variety of the very popular **HEIRLOOM**. Huge, bushy plants yield huge quantities of 1 oz., 1½" long, bright yellow, pear-shaped, cherry tomatoes which will give you fruit until frost. Good producer even in cooler weather. **(I) 71 days**

# PLUM \* ROMA \* SAUCE \* SALSAS

**AMISH PASTE** - Very productive *HEIRLOOM* from Wisconsin that dates to the turn of the century. This variety produces 8-12 oz. deep-red ox heart-shaped, meaty fruit. Probably one of the largest paste tomatoes. Lots of sweet, tomatoey flavors from this coreless meaty fruit. A great slicing and sauce tomato. Not overly acidic. **(I) 74-85 days** ◇

**NEW** **AUDREYS LOVE** - This dwarf variety, only grows to about 2-3 ft tall. The fruit are plum shaped paste type tomatoes. A deep red with green striping. Can be used in salads or fresh eating. Very juicy. The flavor is mild but intensifies if cooked like most paste tomatoes. Very productive for a dwarf variety. **(I) 78 days** ◇

**BLACK PLUM**- Not your typical small black plum this very prolific Russian *HEIRLOOM* has great yields. A lovely brown-red mahogany with bright red flesh. Oval fruits come in at 2-4 oz. This variety has been sought after for its comparability in taste and uses to Roma. **(I) 80 days** ◇

**NEW** **BRANDY SWEET PLUM** - This is a wonderful compact indeterminate, potato leaf, tomato variety that was an accidental cross between Brandywine and Sweet 100, yielding abundant crops of 2 oz., pink, elongated cherry fruit with the rich, complex flavors of Brandywine combined with the pronounced sweetness of Sweet 100. **(I) (OP) 75 days** ◇

# PLUM \* ROMA \* SAUCE \* SALSAS

## (CONT'D)

**GRUSHOVKA**- Siberian *HEIRLOOM* variety of delicious, pink, 2-3" plum-shaped tomatoes on very compact plants. Plants are only about 2-1/2 feet tall but produce abundantly and are a very good choice for container gardening. These little tasty tomatoes are thin skinned and excellent for canning whole or diced.

**(D) 65 days** ◇

**ITALIAN GOLD** - Prolific and disease resistant. Very productive, Roma-type paste matures into a gorgeous golden orange color. These fancy guys shine in clusters of about six, averaging 5-6 oz. in weight. Sweet, meaty, and excellent for canning, pastes and freezing. A Gretchen favorite.

**(D) 75-80 Days** ◇

**OPALKA** - An *HEIRLOOM* originally from Poland circa 1900 (aka Polish Torpedo). Vigorous vines produce some of the best tasting red, paste tomatoes with 5" long fruit shaped like a banana pepper with a pronounced tip on the bottom. Fruit has very few seeds, is extremely meaty and loaded with rich sweet flavors. **(I) 80 days** ◇

**NEW** **ORANGE BANANA** - *HEIRLOOM* Sprawling plants produce good yields of 3", 2-3 oz. plum-shaped orange paste with pointed ends and a good sweet-tart flavor. Although a paste tomato the taste is so good that aside from delicious sauces and salsa, Orange Banana is also perfect for eating fresh or canning and drying. The orange color is unusual in a paste tomato. **(I) 85 days OP** ◇

# PLUM \* ROMA \* SAUCE \* SALSAS

## (CONT'D)

**NEW** **PLUM LEMON - HEIRLOOM** Fruit is pointed on its ends just like a lemon with solid meat, almost like a paste tomato. 2 x 3-inch (6 oz.) fruit is a bright, clear-yellow tomato with mild sweet flavor. Perfect tomato for salads, tomato sauce or even a wonderful yellow ketchup. **(I) (OP) 81 days** ◇

**NEW** **PORTER- HEIRLOOM** A Southern favorite well known for its drought resistance, producing high yields of small, 2-oz., plum-shaped, smooth, dark pink fruits under extreme conditions. Perfect for canning or salads. **(I) (Op) 75 days** ◇

**NEW** **PRINCIPE BORGHESE - HEIRLOOM** This is the variety Italians have long favored for drying. Meaty plum-shaped tomatoes have very little juice and few seeds, they measure just 1 1/2 inches long. The small plants become extremely loaded with fruit. **(D) (OP) 75 days.**

**ROMA -** The best-known paste tomato. Heavy crops of bright red, pear-shaped fruit with lots of meat and few seeds. Great for sauces, soups and sun-dried tomatoes. **(D) 75 days OP** ◇

**SAN MARZANO - HEIRLOOM** from Italy. Compact and prolific producer of bright red, slim, 2-“, plum-type fruit over a long season. A paste tomato with pointy end, heavy walls and little juice, so it's great for tomato sauce. Crack resistant. Better tasting than Roma. **(SD) 78 days** ◇
